

To the SBCAG board,

Cars Are Basic (CAB) supports the Highway 101 widening project. However, CAB does not support wasteful/ fraudulent spending or increased taxes to pay for the project. CAB believes that federal taxpayers should not give any discretionary money to SBCAG or CalTrans until questions asked by the taxpayers are fully answered. U.S. taxpayers should not pay for fraud and waste. CAB intends to make our position known to the the proper federal agencies concerning the most recent request for discretionary funding, and we will expand on our position during the discussion of the upcoming FTIP.
