

Memo

To: Chair Patino and SBCAG Directors
From: Marjie Kirn, Executive Director *MJK*
Date: September 18, 2019
Re: Staff recommendation for item 5, Airport Land Use Compatibility Plans

Chair Patino and SBCAG Directors:

The draft Airport Land Use Compatibility Plans for the six airports in Santa Barbara County, as well as the associated negative declaration are agendaized for adoption. The agenda also provides the option for the Board to continue these items to a future meeting. To allow more time for staff to work with the community and local agencies, staff recommends continuing these items. Caltrans, our funding partner for this project, requires these plans are adopted prior to September 25th or Caltrans has stated that SBCAG will lose a 10 percent retention of the grant, a total of \$14,000. On Tuesday, the City of Goleta Council approved reimbursing SBCAG for the loss of funding up to \$51,000 if these items are continued. SBCAG's financial risk of continuing the item has been mitigated with Goleta's action. Again, staff recommends actions 5A through 5H are continued to a future meeting.
