

ATTACHMENT 1: FINDINGS

1.0 CEQA FINDINGS:

1.1 *Consideration of the Negative Declaration and Full Disclosure*

The Santa Barbara County Association of Governments (SBCAG), acting in its role as the Airport Land Use Commission, has considered the Negative Declaration (SCH#2019089020) together with the comments received and considered during the public review process. The Negative Declaration reflects the independent judgement of SBCAG, was completed in compliance with CEQA, and is adequate for this proposal. On the basis of the whole record, there is no substantial evidence that the project will have a significant impact on the environment.

1.2 *Mitigation of Project Impacts*

SBCAG finds that in accordance with the environmental impact analysis provided in SCH#2019089020, the project will not result in significant effects on the environment. Therefore, project conditions of approval which are intended to mitigate or avoid significant effects on the environment are not required.

1.3 *Location of Documents*

The documents and other materials that constitute the record of proceedings upon which this decision is based are in the custody of the Director of Planning, Michael Becker, located at 260 N. San Antonio Road, Ste. B, Santa Barbara, CA 93110.

1.4 *Environmental Reporting and Monitoring Program*

Public Resources Code Section 21081.6 requires SBCAG to adopt a reporting or monitoring program for the changes to the project which it has adopted or made a condition of approval in order to mitigate or avoid significant effects on the environment. The proposed project would not result in significant effects on the environment and, therefore, no conditions of approval for purposes of mitigation, environmental reporting, or monitoring program are required.
